Lab: User role controlled by request parameter

| Walkthrough and understanding

- has an admin panel at /admin, which identifies administrators using a forgeable cookie
- You can log in to your own account using the following credentials: `wiener:peter`

Steps Taken:

- direclt input /admin on link

- changed id value to admin

- Tried admin = true on link

- Analyzed cookies and found out admin cookie value was set to false changed value to true

Goal: accessing the admin panel and using it to delete the user `carlos`.
